Dear Dennis, 3/8/96

Herewith through Chapter 30.

When Jerry can find the time or can get a student to do the searching for me I'll have a Lifton addition. He wrote Meagher telling her how he was going to steal a good-quality Zapruder print and then how he did it. As planned.

I had both letters but cannot find them.

Lifton threatened to sue Hood over disclosing it as a violation of his rights. After costing Hood what could have kept and educated a student for a year he did nothing.

I got the Hosty ms. corrections to correct when I had just finished Chapter 27. By the time I got into 28 I did not remember whether I had actually said what at several points in 28 I refer to as having been said!

Thanks and best to you both,

Harold
